

Who we are

Our focus is simple...One child at a time. We help to restore family relationships; prepare young adults to make positive life decisions and become productive citizens. We are building stronger communities through programs that strengthen & preserve families.

Whether through reunification, adoption or developing the life skills to stand on their own, our goal is always to help children and families find a forever place they can call home. Grounded by faith and the traditions of the United Church of Christ, we make a positive impact on over 2,000 lives each year.
